

I am asking at http://www.researchgate.net/post/Anyone_watching_the_Indian_monsoon_vs_the_Arabian-Pakistan_Dust_Cloud and would like to hear, if you or anyone at your institution is looking into the Dust Cloud and monsoon cyclone interactions?

I have a web page showing the interaction between the Arabia-Pakistan Dust Cloud and GONU in June 2007 at <http://www.ecoseeds.com/GONU3.html>.
